

When an Adhesive System really has to hold... Merco has a Tape for every substrate

Stick With Us®

Whether your customers need to tape HVAC ducts, electrical connections, seal cartons of material or mask high tech circuit boards, Merco has the tape for their applications. No job or requirement is too large.

And even if they need duct tape for wallets, wart removal or simply taping tipsy sorority sisters together, no job is too small for Merco Tape. We have no minimum size order and we ship same or next day over 94% of the time.

We're constantly innovating, adding new solutions, striving to be your *one source for adhesive solutions*. And not just plain-vanilla industrial applications for our tapes. In fact, we've been thoroughly covering, so to speak, all aspects of the tape industry for over 35 years.

Let Merco Tape show you how to look good to both the CEO of High-Technology Industries, Inc. *and* the pledge committee of Phi Beta Kappa.

Merco Tape: *Stick With Us*®.
